## PROFILE

---

As a final-year Bachelor of Business Information Technology (BBIT) student at Strathmore University, I am poised to graduate with a dedication to continuous learning and proactive problem-solving. Proficient in both back-end and front-end development, I have effectively managed tasks independently while fostering collaborative team environments.

My academic journey, coupled with hands-on experience in networking, server administration, and website development, has equipped me with a deep understanding of the evolving technological landscape. My experience includes developing innovative digital solutions that enhance user experiences, crucial for elevating quality, accessibility, and affordability in various sectors.

I take pride in my strong aptitude for teamwork, demonstrated through my ability to collaborate effectively with diverse team members. With a passion for bridging theoretical knowledge with practical application, I am eager to transition from academia to industry, contributing my multifaceted skill set to drive positive change within organizations and society.
